

BUYERS BEGON FOR VICTORY BONDS

Outside Concerns and Local Business Men Will Buy Quickly and Terms on Loans Will Be Made Liberal.

The Continental Gin company, from the headquarters in Birmingham, Ala., wired its local branch to purchase \$10,000 worth of Victory bonds Friday. The subscription was assigned to the cotton division of the sales director, J. C. Hyde. This is the first out-of-town concern to express intention of buying substantial amounts of Victory bonds. The subscription was announced by H. W. Brooks, local manager.

With the return of John J. Hefflin, chairman for Shelby county, which commences next Monday, after a conference with loan commissioners in St. Louis, active work of assigning subscribers for the work was resumed Friday.

Representatives of the county at all sides of the county are being urged to make the strenuous plan outlined by Joe R. Hyde and his workers in the sales division.

Besides the subscription of the Continental Gin company other applications from bankers, financiers and capitalists are being received. Every indication points to big buyers investing early in the campaign.

Cotton Quota Assured.

The biggest division of all, the cotton division, through its committee, has assured C. W. Butler, assistant sales director, that the cotton quota of \$200,000 will be raised in less than two days.

Henry C. Loeb, of B. A. Lovenstein and Bros., Inc., brooded into headquarters and offered to buy \$10,000 of bonds. He has a new hat that the retailers' quota of \$100,000 would be in the hands of the sales division. Charles Albright, chairman of the county division, is expected to arrive in two days after the campaign opens. Wednesday night enough was given in the way of assurance on the part of the sales division that the quota of \$200,000 would be "knocked out" as Mr. Albright expressed on Monday. One day will be enough, he said, to get the quota of \$200,000.

At a meeting of the Memphis Clearing House association Thursday afternoon, plans were discussed to make loans on Victory bonds and to specify the terms.

It was decided that terms to Victory bond buyers will be made by the banks that will enable buyers to purchase without putting up money for collateral. Effort on the part of members of the Clearing House association, it is said, will make the coupon rate of 4% per cent.

Such an announcement if it does come, will make the coupon rate of the county's quota a much easier task than it would be otherwise.

MEXICAN LEADER SLAIN IN BATTLE

Aged Rebel Who Arrived Secretly at Vera Cruz to Aid Diaz Is Shot by Carranza Troops During Fight.

MEXICO CITY, April 17.—(By the Associated Press.)—Gen. Aureliano Blanquet, minister in President Huerta's cabinet, who recently was reported to have landed in the Vera Cruz region for the purpose of starting a revolution against the Carranza government, was killed yesterday in a fight near Chavasta village, according to press reports from Vera Cruz, which quote a report from Gen. Francisco I. Madero, chief of military operations in the region of Cordova and Orizaba.

According to telegrams given out by Gen. Uguiza, the commander in the region of Chavasta, Gen. Sanchez met a party of rebels under Blanquet yesterday afternoon, defeating them. The body of Gen. Blanquet was found by members of his own army, bringing him back to Vera Cruz to establish his identification.

Gen. Francisco Alvarez was taken prisoner, together with the family of Pedro Gavay, one of the most active lieutenants of Felix Diaz.

Gen. Blanquet had recently been printing numerous stories regarding Carranza's proposed revolt. These reports had been published in the United States. Gen. Blanquet's claim that he had 40,000 men with arms and ammunition was not substantiated. He was allied with other factions, has been accused officially. The band which he was leading when he was killed was small and was poorly equipped. It is reported.

While only a youth, Gen. Blanquet was a member of the firing squad that put to death Emperor Maximilian at Queretaro. Rising in the government service he became minister of war under President Huerta, being the man who personally arrested President Francisco Madero when Huerta seized the reins of government. It was charged that he was involved in the later assassination of Madero.

Gen. Blanquet sailed from Mexico, Gen. Blanquet accompanied him. Recent reports received here stated that he was operating a motion picture theater in Brooklyn.

Home Again After 10 Months Abroad

PRO-GERMAN, SAYS EDITOR'S OBSERVER

LAWRENCE, IN TOUR OF CITIES TO LEARN LEAGUE SENTIMENT, FINDS TEUTONS ANTAGONISTIC TO U. S. YET.

BY DAVID LAWRENCE. (The News Service Special Correspondent.)

MILWAUKEE, Wis., April 17.—Of the things that have made Milwaukee famous, one will disappear on July 1, another may depart eventually when slow-minded Germans the world over begin to comprehend what has really happened to their Kultur and a third is on the way back home to be firmly imbedded in the life of the state, namely the militant Americans of Wisconsin.

What has been the attitude of the Germans since the end of the Hohenzollern dynasty and the utter defeat of the German arms? The change has been hardly perceptible. Most of those who sympathized with Germany during the war have remained in the United States. They show no appreciation of the fact that the United States has stood for a just peace and was among the first of the associated powers to see the practical necessity of getting food to the men, women and children of Germany so that Bolshevism and anarchy might be averted.

Switzerland, the Great Britain has sided with the United States in such matters, there is still a violent hatred of the German people in this vicinity. Indeed, the German sympathizers maintain an attitude of indifference to the individual and political leaders who questioned their loyalty and extend support to other publicists who have been "neutral" or "false to Germany" which state of mind was characterized by the most American of the other hand will quickly describe as something intensely pro-German.

It is true that many Americans of German descent were loyal throughout and it is true that many proved their loyalty in the most effective manner. But it is also true that a large proportion of those who stayed at home, subscribed to the German cause because they feared their attitude might be disclosed by a refusal to participate in the war.

Loans and contributions for money were conducted more or less in public. At the ball box, legal secretary, there have been no further contributions. The Germans have been getting even on every occasion. Large numbers of them have been making the most of the situation. They have been making the most of the situation. They have been making the most of the situation.

One year the caving of the bank on the right side of the river, at and near Hopefield Point, which if continued, threatens the mouth of the river making a new channel which might have the present Memphis wharf far from the river. The caving has extended farther on the right side of the river, at and near Hopefield Point, which if continued, threatens the mouth of the river.

The commission began work in an effort to keep the channel inside the town of the commission was that one of the dredges have since been employed on that work. It was hoped that the current of the river would eventually wear the bar away.

Col. C. McH. Townsend is at the full commission. Nearly the committee are making the semi-annual trip. The Memphis delegation which was made up of the semi-annual trip. The Memphis delegation which was made up of the semi-annual trip.

THE WORLD OUTLOOK

(By the Associated Press.)

Germany will be forced either to accept or reject the allied peace terms by May 15, according to reports printed in Paris. It is indicated no reply is expected before May 6, the peace conference being disposed to give the German government what it considers ample time in which to digest the terms and frame its reply.

What action would follow rejection of the terms by the Germans has not been forecast.

The refusal of Stephen Pichon, French foreign minister, to divulge details of the proposed treaty, while speaking in the chamber of deputies yesterday, and the failure of Premier David Lloyd George to speak in more than general terms before the house of commons, would seem to indicate that no intimation of terms will be made public at present.

It was announced at a meeting of the council of ten in Paris yesterday afternoon that various articles of the pact now are in the hands of the drafting committee and remaining articles would be disposed of today. It seems probable, therefore, that the treaty is in a fair way to be completed within a very brief period.

Norway and Switzerland will act as agents of the allied and associated governments in feeding Russia. It has been agreed at Paris. Representatives of France have made reservations on the subject and these will be considered today. The plan is opposed by Russian elements opposed to the Bolsheviks, but it is said to be probable that they will ultimately acquiesce in the allied decision.

FEAR ARMENIAN MASSACRES WILL BE SLAIN

WIFE OF FORMER HUN CROWN PRINCE SEEKING DIVORCE

LONDON, April 17.—It is learned here that the situation in Turkey is causing grave anxiety. Internal disorder is feared, according to reports from Rear Admiral Webb, R. N., at Constantinople. It is feared there will shortly be outbreaks and massacres of the Armenian population on a large scale.

The situation at Smyrna, where the Turks and Greeks are ready to spring at each other's throats, is typical of the situation throughout Turkey. Bands of brigands are dominating the country, even within a few miles of Constantinople, and committing atrocious murders.

The Committee of Union and Progress, the Young Turk organization, which was driven from power in Constantinople as a result of the allied victory, is reported to be secretly conducting an energetic reorganization movement.

Further disorders are feared in Egypt. A division of British troops is on the way from the Dohra to relieve the troops of Maj. Gen. Allenby, the special high commissioner to Egypt and to relieve a large number of outbreaks and New Zealand soldiers who will return home.

HENRY ROBERTS, FAETEE COUNTY CLERK, KILLED

Character That Belonged to Another Age Meets Death at the Hands of Sheriff Ross and Posse.

UNDER LIFE SENTENCE FOR MURDER AND ESCAPED Career of Outlawry Brought to an End While He Faced the Officers and Fought for Freedom.

SOMERVILLE, Tenn., April 17. (Sp.)—A sheriff's posse went out from Somerville, Tenn., Thursday morning at 1 o'clock and surrounded the cabin home of Henry Roberts, who had been out for Henry to come out. Henry came out. He came out shooting, but the odds were against him and they killed him.

He died with his trusty gun in his hand, the gun that, as in the case of desperadoes, failed him at last, the gun that Henry Roberts had brought out of all the difficulties that it had gotten him into, which were many, and finally closed a career that was varied and tempestuous.

The posse of 10 men was led by Tom Beck, the sheriff of Fayette county. A mild-mannered man who goes about in his hard hat and fast when they call them. Henry Roberts was a type that was out of place in the modern civilization. He got a bad start in life. Things went against him in his youth and he became embittered against the world. He believed the hand of every man was against him. He was a man who had been a part of the law and he fought with the law.

When a mere youth he and his brothers were inescapable and a terror to the community. The younger brothers were sent to the State Reformatory. He got a year in the reformatory. He got a year in the reformatory. He got a year in the reformatory.

Henry and a neighbor were operating on a goose for "hard work" and he got a year in the reformatory. He got a year in the reformatory. He got a year in the reformatory.
